

THE MYSTERY OF FATHER PIO

To Padre Pio, one of the greatest saints in history, canonized by Saint John Paul II, they placed microphones in the confessional and accused him of having sexual relations with his spiritual daughters. He suffered an implacable persecution on the part of some men of the Church. The film offers, in the key of thriller, testimonies and documents never divulged on the plot against its protagonist, who had the stigmas of Jesus Christ on his hands, feet and side for 50 consecutive years; He would read the soul of the people in any language; and he “walked” around the world thanks to the gift of bilocation (the possibility of being in two different places at the same time).

DOCUMENTARY, RELIGIOUS
